

## With Dialocal, your overseas friends, family and business contacts can call you for the price of a local call

**Dialocal provides you with a telephone number from another country and savings to your contacts overseas**

### Bring your World Closer

Dialocal provides phone numbers in major cities of countries all over the world. When you choose a number in a city where your family, friends and/or business contacts live, they will be able to call you for the price of a local call. For example, if you live in Australia and choose a number in London, your contacts in London will be able to dial your local London number and reach you in Australia. Since they are only charged the price of a local call, they can save every time they call.

Dialocal is an **inbound calling service** that is added to your existing phone service. Since you don't need any additional equipment or adapters, Dialocal is the perfect complement to your current mobile phone service.

### Stay in Touch for Less

With Dialocal, your overseas contacts can call you for the price of a local call. You only pay our low rates on the calls you receive and a small monthly fee for your phone number.

### Select from a Multitude of Countries

Certain restrictions apply. Additional charges and/or airtime may apply for calls forwarded to a cell phone. Check with your cell phone provider for details. Numbers remain property of Net2Phone and are only being leased to service providers for the term of the active relationship. At any time, a phone number may be removed and service terminated if regulatory issues arise where it is no longer legal to provide this type of service from the country in question. Phone numbers cannot be transferred or ported to another provider. Rating and fees to be determined in the contract process. Net2Phone also reserves the right to cancel an account at any time if fraudulent use is suspected.
